**MEMORANDUM FOR:** Chief, Personnel Section, DPD-DD/P

**SUBJECT :** Communications T/O Title Changes

1. For some time now the T/O being used by the Communications Section has not been correct as to job titles. This has caused difficulty in recruitment and has been a problem in proper management of people. In a final effort to clear up the T/O and to match slots with actual jobs being performed, the following changes in slot titles are requested:

A. Change slot #174 from Commo Tech/Radio, GS-11 to Electronic Specialist, GS-11. (This title has always been in error. There is no such thing as a GS-11, CT/R.)

B. Change slot #175 from Commo Tech/Radio, GS-9 to Electronic Technician, GS-9.

C. Change slot #271 from Electronic Engineer, GS-11 to Electronic Specialist, GS-11. (This has always been an Electronic Specialist slot. An error was made when you submitted the last T/O and it was changed by mistake to an engineer slot.)

D. Change slot #273 from Commo Spec, GS-11 to Electronic Spec, GS-11.

E. Change slot #278 from Commo Tech/Radio, GS-9 to Electronic Tech, GS-9.

F. Change slot #279 from Commo Tech/Radio, GS-9 to Electronic Tech, GS-9.

G. Change slot #336 from Commo Spec (Ops), GS-11 to Electronic Spec, GS-11.

H. Change slot #337 from Commo Spec, GS-9 to Electronic Tech, GS-9.

25 YEAR RE-REVIEW
